

TRIPLE QX

Red Antifreeze Concentrate Product Data Sheet

Description

Triple QX Red Antifreeze Concentrate is an extended life, ethylene glycol antifreeze/coolant providing effective heat transfer and all climates, year round performance. It contains Organic Acid Inhibitor technology and is free from nitrates, amines, phosphates, borates and silicates. This will provide outstanding protection against frost, corrosion and overheating in all modern engines.

Benefits

Triple QX Antifreeze Red provide the following exceptional benefits

Protection: Organic acid inhibitor technology in Triple QX Red Antifreeze provides outstanding corrosion protection for all cooling system parts, and provides pitting protection for cylinder liners.

Long Life: Triple QX Red Antifreeze provides up to 100,000 miles of service in passenger cars, 250,000 miles in commercial vehicles and 5,000 hours in off road equipment. It is advised the coolant is replaced when the above mileage have been reached or after 5 years whichever is sooner.

Compatible: Compatible with other coolants, hoses, elastomer and seals and can be used directly as a summer coolant.

Performance Level

BS6580 (2010)

VW G-12/TL-774D & VW G-12+/TL-774F

MAN 278 & MAN 324

MB 325.3

RENAULT 41-01-00

Direction for Use

Drain and flush the cooling system with clean water. Use a cooling system flush product if sludge is evident. Check all hose clips and joints for leakage tighten where necessary.

Partly fill radiator with clean water and pour in Antifreeze to give level of protection required (refer to vehicle handbook for total volume of the cooling system). Top up with more water.

Replace radiator cap, run engine for a few minutes to circulate antifreeze around the system. Remove radiator cap and top up the radiator with water if necessary.

If found necessary to top up the radiator, use only diluted Antifreeze to the same concentration as already used.

Volume % Triple QX Red Antifreeze/Coolant Concentrate	Volume % Water	Protection Temperature
50%	50%	Up to -36° C
33%	67%	Up to -20° C

Our Complementary Range

In addition to the full range of Triple QX Antifreeze/Coolants, Triple QX also offers a complete portfolio of automotive lubricants for passenger as well as commercial vehicles.

Health and Safety

Warning: contains ethylene glycol. Harmful if swallowed. Keep out of the reach of children. If swallowed, seek medical advice immediately. Avoid contact with skin and eyes. Keep away from food, drink and animal feeding stuffs. Dispose of this material and its container to hazardous or special waste collection point.
