Product: Power Steering Pump

Electric Powered Steering Pumps

Electrical steering pumps often require loading into the vehicles ECU or diagnostic systems. There are a number of different designs. This vehicle has a Map Selection type which will require loading. If you are not aware or do not have the correct equipment it is recommended that the work is carried out by a garage or a motor trade technician.

Map Selection Fitting Instructions

The specified preloaded map will require activating through the diagnostic system in the column drive/steering pump.

Date Created: 29/11/12

Ref No: 619 map select
